To whom it may concern,

I would like to thank all the gentlemen that worked on our Amstutz Road Street project this past week. I use the term "gentlemen" because that is exactly who and what they are. I have worked as the Town Administrator for our small town for 13 years, and this experience was a pleasure. I was met with enthusiasm, and professionalism. Everyone from the foreman to the paving crews, to the flaggers, all included me, educated me, and protected me from harm, literally. I was helping to move traffic along when a driver went right through the flagged area, he came close to me and others and your employee saved me from harm.

Job well done API! Give those guys a raise!!!!!!!!!!

Sincerely,

Peggy Garton  
Town Administrator
